

## How much does Sky Satellite TV actually cost?

### Several Sky TV cost scenarios

**I live alone and I am an existing Sky Customer and I decide I want to watch the sports channels in HD.**

#### This is what I have to pay BskyB

I have to buy a HD Box = £99  
One off Set up fee = £60  
Subscription = £474 per year  
HD subscription = £117 per year

I have to pay a minimum subscription of 12 months to BskyB and be connected to the phone.

#### This is what I have to pay Setanta Sports

Subscription = £155.88  
One off Connection Fee = £14.99

**My first year it has cost me in total to both BskyB and Satanta Sports £920.87.**

**Next year I pay £474+117+155.88  
Total= £746.88 there after per year.**

#### Next case scenario

I live with my wife and child and I am an existing sky customer and I want to watch all the sports channels in HD.

My child wants it in his or her bedroom so I also have to subscribe to **multi-room**.

This is what I have to pay BskyB

I have to buy a HD Box = £99  
One off Set up fee = £60  
Subscription = £474 per year  
HD subscription = £117 per year  
Multiroom per room £117 per year  
Extra HD Box = £150

This is what I have to pay to Setanta Sports

Subscription = £155.88  
One off Connection Fee = £14.99  
Multiroom = £35.88 per year per room

In my first year it has cost me in total

**£1223.75**

Next year it will cost me in total

**£474+£117+£158-88+£35.88  
Total= £785.68 there after per year**

The above costs will be higher if I have Sky HD and Setanta sports in other rooms of my home.

Say I have Sky+ and don't subscribe

I have to pay **BskyB £117 per year** to use their Video recorder functions on the Sky+ Box.

In addition, if I ring BskyB using their 0844 numbers I have to pay 6P to connect and 5P per minute after that to British Telecom.

**The Cost of Sky+ combined with HD TV:**

- a) You have to pay out £49 for a Sky + HD Box
- b) You have to pay out 12X £46 monthly subscriptions costing £552 per year.
- c) You have to pay out 12X £9.75 for their HD Pack costing £117 per year.
- d) They charge an extra £30 set up fee for the sky + box

Your first year costs you £748.

Then each year it costs you £669 to continue to watch these HD Channels.
